

# Client Libraries / Comparison /

## Client Libraries /

# Comparison

👍 Super powerful, has a lot of advanced features and great integration with React

👎 Poor documentation, limited ecosystem and support, built by facebook for facebook

👎 Has a lot of requirements to the schema

👍 Big community, ecosystem, great documentation and support

👍 Easy to setup and get running

👍 Great flexibility

**Urql**

👍 Clean and simple API

👍 Smaller bundle size

👎 Missing some of the features out of the box, smaller ecosystem around it
