

GraphQL 101 / Key Terms /

1. Schema

```
1 schema {
2   query: Query
3   mutation: Mutation
4 }
5
6 type Query {
7   characters: [Character!]!
8   episodes: [Episode!]!
9   # ...
10 }
11
12 type Mutation {
13   rateEpisode(input: RateEpisodeInput!): RateEpisodePayload!
14   # ...
15 }
```

***Schema is a source of truth
for ways to query data and
ways to interact with it***
