CountryDetails

LanguagePage

RegionPage

...

CountryCard

```
graph LR; CP[CountriesPage] --> CC[CountryCard]; CD[CountryDetails] --> CC; LP[LanguagePage] --> CC; RP[RegionPage] --> CC; Dots[...] --> CC;
```

The diagram illustrates a data flow or dependency where several different pages or components on the left are all connected to a single 'CountryCard' component on the right. The components on the left are 'CountriesPage', 'CountryDetails', 'LanguagePage', 'RegionPage', and an ellipsis '...' representing additional pages. Each component has a line that converges at a single point on the 'CountryCard' component, indicating that all these pages share or interact with the same card.
