

A pyramid diagram illustrating the hierarchy of testing levels. The pyramid is divided into five horizontal sections, each with a different color and label. From top to bottom, the sections are: a small red triangle labeled 'Veriff E2E', a purple trapezoid labeled 'Product E2E', a light blue trapezoid labeled 'UI' (which is a smaller rectangle inside a larger blue trapezoid labeled 'Integration'), an orange trapezoid labeled 'Unit', and a large yellow trapezoid labeled 'Static' at the base.
